WORK EXPERIENCE

Flutter Developer

Monk Maze, Kolkata, India (Remote)

11/2024 - Present

- Built a mobile super app integrating 7 services (e-commerce, cab booking, dating, etc.) to deliver a seamless user experience.
- Implemented MVVM architecture with GetX for state management, improving code maintainability by 30%.
- Developed the super app from scratch, optimizing performance and reducing load time by 20%.
- Designed and built an admin web app for managing user data, services, and analytics.
- Used Flutter Web to create responsive and scalable interfaces across screen sizes.
- Currently developing an institution management admin web app from scratch, leveraging GetX for dynamic data updates.
- Created custom components tailored to specific design and functionality needs
- Collaborated with cross-functional teams to ensure alignment with business goals.

Junior Flutter Developer

SRV Infotech, Kannur, Kerala

10/2023 - 08/2024

- Designed, implemented, and tested Flutter and Dart code, following the GetX pattern, for iOS and Android platforms.
- Orchestrated the development and deployment process for both staging and production releases, maintaining efficiency and quality throughout.
- Leveraged Git for version control, Postman API for testing for optimizing the development workflow.
- Delivered high-quality solutions tailored to clients' requirements and industry standards.
- Worked on mobile patterns such as MVC and MVVM.
- Contributed to a government project aimed at maintaining staff records for a skill enhancement program designed for higher education students.
- Collaborated with cross-functional teams to ensure seamless integration of new features and adherence to project timelines.
- Engaged in extensive user testing and feedback sessions to iteratively improve the application's user experience and functionality.

Flutter Developer Internship

02/2023 – 08/2023

Self-Staff Software Development, Calicut, Kerala

- Understood basic concepts of design for developing user friendly applications.
- Researched market trends and potential technical constraints to optimize planning for new software.
- Built apps to Android/ iOS devices using a single codebase.
- Implemented the web app features in applications.
- Optimized cross-platform compatibility for web, mobile, and tablet.
- Maintain and build positive client relationships.
- Acquired time management skills to maximize task completion and reduce errors.
- Picked up additional tasks to aid team success.
- Managed complaints with calm, clear communication and problem-solving.
- Worked with APIs like open weather map API.
